TECHNICAL EXPERIENCE

Mr. McInally has 30 years of Information Technology experience, and is a dedicated IT Manager with excellent communication skills. In his work with Soteria, Stephen provides IT support for back office systems. He reviews and modifies processes and procedures, and implemented and maintains Soteria's time-keeping system. Stephen manages programming, analysis, program design, development and maintenance, and is Soteria's project lead and programming manager.

He is particularly skilled in the use of Infinium web-integrated HR and financial software. Stephen's experience includes conversions of financial and payroll systems, account merges and modifications to general ledger account structures.
